

NORWEGIAN MINISTRY OF TRADE,
INDUSTRY AND FISHERIES

**General Norwegian perspectives on the future use
of fishmeal and fish oil**

Ronny Berg
State Secretary

Overall ambition

- A scientific report indicates a potential for 6-fold increase in the added value from fisheries, aquaculture and marine industries by 2050
- Our ambition is to facilitate this
- Policies and a regulatory framework to support growth

By-products

- All by-products must be utilized
- Proper commercial incentives must be in place
- Potential to use more from white fish sector

Aquaculture

- Further growth is foreseen
- New sources for feed ingredients needed
