# **Invitation EUfishmeal Conference and Annual Meeting in the Faroe Islands 28<sup>th</sup> – 30<sup>th</sup> of August 2019**

**Dear members and associated members,**

The next Biannual Conference and Annual Meeting of EUfishmeal will take place in Thorshavn, Faroe Islands, on the 28<sup>th</sup> – 30<sup>th</sup> of August 2019.

The program will include a whole-day excursion to experience the entire value chain from fishmeal to salmon fillet, conference with presentation of the new Faroese fisheries regulation, latest news on process technology in the industry as well as new techniques, science and regulations.

We will visit Havsbrún fishmeal factory, enjoy a gala dinner and have the opportunity to experience Thorshavn and the Faroe Islands.

The registration is now open and will take place online at our new webpage [www.eufishmeal.org](http://www.eufishmeal.org). To register, log on to the member's page with your email and password, follow the link to the external registration site and register up to ten participants. If you have any questions do not hesitate to contact Marc on [mes@maring.org](mailto:mes@maring.org).

**The deadline for registration is Friday the 1<sup>st</sup> of April.**

The fee for participation is 600 Euro per person (same rate for spouses). Invoices for participation will be sent to the factories/associated members when the registration is complete. You do not need to book hotel rooms, but all participants will pay for their own room by departure. Flights must be arranged individually.

Sightseeing on Friday and Saturday can be arranged if there is enough interest. See more info and sign up on the registration site. Please note that this is not part of the conference fee.

Best regards,

Odd Eliassen, Marc Eskelund, Søren Anker Pedersen and Anne Mette Baek

**EUFishmeal** is the association of European fishmeal and fish oil producers. On a global level, Europe is producing 16% of the world's fishmeal and 23% of the world's fish oil and the total value of production is approximately 1 billion €/year.

Production is based on a sustainable exploitation of resources and is placed in remote coastal areas and contributes to growth and development in coastal communities across Europe.
