Thursday June
2nd
Color Hotel

Conference part 1 – Optimal Fisheries Management

Science, sustainability and partnership for the future

9:00

Conference start and welcome by Frank Trearty

Chairman of European Fishmeal, CEO, Pelagia
Killybegs

The industrial fishery 10 years from now

Anna Rindorf, Professor, Head of section, Danish
National Institute of Aquatic Resources, Section for
Ecosystem based Marine Management

Why should we start talking about maximum sustainable yield?

Henrik Sparholt, Dr. scient., Project Leader at the
FMSY-project, University of Copenhagen

Status of the seals' population in the North Atlantic and Arctic Ocean

Jónas R. Viðarsson, Director of Division of value
creation, Matís OHF

Challenges for European pelagic fisheries

Ken Haste Andersen, Professor, Head of section,
National Institute of Aquatic Resources Centre for
Ocean Life

10:30

Coffee break, sponsored by **JS Proputec**

**EUROPEAN

PRODUCERS**

| | |
|--|---|
| 11:00 | How can industry contribute to improve scientific advice and fisheries management? Claus Reedtz Sparrevohn, Chief Scientific Advisor, Danish Pelagic Producers Organization |
| 11:15 | Panel debate How a science/industry partnership promotes sustainability in fisheries management - Anna Rindorf - Henrik Sparholt - Jónas R. Viðarsson - Claus Reedtz Sparrevohn - Ken Haste Andersen - Egil Magne Haugstad |
| 12:00 | Lunch |
| Thursday June 2nd Color Hotel | Conference part 2 – Control, Certification and Green Claims <i>Responsibility actions and how to verify them</i> |
| 13:00 | Fisheries control systems – the Danish way Anja Gadgård Boye, Head of Division, Danish Ministry of Food, Agriculture and Fisheries |

**EUROPEAN
FISHMEAL AND FISH OIL
PRODUCERS**

Technical weighing solutions for responsible practices

Scanvægt, Lytzen, SkawInspection and Jydsk Vægtfabrik

Is DNA-testing the future of species control?

Einar Eg Nielsen, Professor, National Institute of Aquatic Resources, Section for Marine Living Resources.

14:15

Coffee break, sponsored by **Unit Pump**

14:45

Why seafood traceability is important in an era of Climate change

Alexandre Cornet, Ocean Policy Officer, WWF EPO

Marin Trust - what it can that others cannot

Libby Woodhatch, Executive Chairman, Marin Trust

The ASC Feed standard and how it impacts fishmeal production

Michel Fransen, Head of Standards and Science, ASC

Green claims and sustainability labeling - perspectives and potential

Charlotte Thy, coordinator for Nordic Environmental Footprint Group

Product environmental footprints and Life cycle assessments - how will it affect sustainability documentation

Sara Hornborg, PhD, Scientist at RISE, Department of Agriculture and Food
